

## Information on CE conformity

### Are your products safe?

In Switzerland, the same safety provisions apply for machinery and many other products as in the European Union (EU) and the European Economic Area (EEA). As a manufacturer, you are responsible for the safety of your product.

### Why is CE conformity necessary?

Within the EU, the EEA and Switzerland, products must comply with the essential health and safety requirements. Manufacturers confirm the fulfilment of these requirements with their EU declaration of conformity.

### We are ready to assist you with information:

- on CE conformity
- on European directives/regulations
- on European standards
- on the code of practice for changes to machines
- on safety of machines and control systems
- on safety of low-voltage switchgear and control gear
- on safety of personal protective equipment against falls from a height

### We offer:

- assessment of machinery protective measures
- statements on the state of the art in used machinery
- support with applicable directives/regulations and standards in procurement
- specialist seminars on product safety
- in-house seminars adapted to suit your needs

Benefit from our many years of experience and our continuously updated expertise.

#### Suva

Technology Section  
Rösslimattstrasse 39  
CH-6005 Lucerne
